2019 North Star Mutual Fund Overview

As some saw impending doom for 2019, just the opposite happened and 2019 delivered new record highs for all major US Stock Indices. North Star strategies maintained a disciplined focus of investing primarily in domestic companies that generate high free cash flow and offer what we believe to be compelling valuations. Since we launched our mutual funds, the management structure of the firm and the portfolio managers of each fund has remained the same. Thank you for your continued support and trust in North Star.

The performance data quoted here represents past performance. Current performance may be lower or higher than the performance data quoted above. Investment return and principal value will fluctuate, so that shares, when redeemed, may be worth more or less than their original cost. Past performance is no guarantee of future results. For performance information current to the most recent month-end, please call toll-free 855-580-0900. Each Fund will deduct a 2% redemption fee on the redemption amount if you sell your shares less than 30 days after purchase or shares held less than 30 days are redeemed for failure to maintain a Fund's balance minimum.

Mutual Funds have investment risks including loss of principal. There is no guarantee the fund will meet its objective. In general, the price of a fixed income security falls when interest rates rise. There is a risk that issuers and counterparties will not make payments on securities and other investments held by the Fund, resulting in losses to the Fund. The Fund may invest in high yield securities, also known as "junk bonds". High yield securities provide greater income and opportunity for gain, but entail greater risk of loss of principal. Foreign common stocks and currency strategies will subject the Fund to currency trad-ing risks that include market risk, credit risk and country risk. Municipal securities are subject to credit risk where a municipal security might not make interest and principal payments as they come due. The Advisor follows an investing style that favors value investments. At times when the value investing style is out of favor, the Fund may underperform other funds that use different investing styles. Investments in lesser-known, small and medium capitalization companies may be more vulnerable than larger, more established organizations. As with any investment, there are risks associated with REITs. Investments in lesser-known, small and medium capitalization companies may be more vulnerable than larger, more established organizations. The Advisor does not attempt to keep the portfolio structure or fund performance consistent with any market index. Increased portfolio turnover may result in higher brokerage commissions, and other transaction costs may result in taxable capital gains.
